WAXING SERVICES

Please allow 4-6 weeks of outgrowth prior to waxing services. Waxing may cause redness, swelling, sensitivity, irritation, and/or skin loss. It is recommended that you not tan within 24 hours prior to or after a wax service, or wear makeup for 1-2 hours after any facial waxing. If you have used any of the following topical products within 24 hours prior to the service we will not be able to proceed: Accutane, Retin-A, Alpha-Beta Hydroxy or a chemical peel.

SKIN & NAIL SERVICES

Please refrain from shaving 24 hours prior to any body treatment or pedicure service. Exfoliations performed in these services may be irritating to freshly shaven skin.

FOR COLOR TREATED HAIR

Every color performed by our students is as unique as you. We ask that you'd refer to their expertise in caring for your unique combination of hair color, type and texture. However, as a general rule, we recommend refraining from shampooing your hair for 48 hours after any color service. We also recommend using cool to lukewarm water for your first wash.

FOR CHEMICALLY TREATED HAIR

We recommend refraining from shampooing or wetting your hair for at least 72 hours after any chemical service. This includes smoothing, relaxing, perming and/or straightening services. If this is a new service for you and you would like additional styling tips and tricks to help with your new "do", please let us know. Any one of our VICI staff would be happy to assist you.
